Why is Sugar Sweet?

If sugar did not dissolve in the mouth you would not taste the sweet. GROVE'S TASTELESS CHILL TONIC is as strong as the strongest bitter tonic, but does not taste bitter because the ingredients do not dissolve in the mouth, but do dissolve readily in the acids of the stomach. It is just as good for Grown People as for Children. The First and Original Tasteless Chill Tonic. The Standard for 30 years. 50c.

## Centenarians in Great Britain.

Once more woman has demonstrated her superior vitality, to the discomfort of mere man. Of the centenarians who died in the United Kingdom during last year 42 were women and only a paltry 15 were men; in 1905 the numbers were 36 and 22, respectively, and in 1904, 41 to 22. During the last ten years the women who died after completing 100 years, at least, of life, exceeded the male centenarians by 327 to 177—an advantage of nearly 85 per cent.

Tested by the length of life, woman can equally claim the superiority. Bridget Danaher, who died last March in Limerick, was said to be 112 years old; Mary O'Hare, another daughter of Erin, was only two years younger, and Mrs. Sarah Egan, of King's County, was credited with 107 years, while Bridget Somers, who ended her days in Sligo Workhouse in March, 1904, had reached the ripe old age of 114. So healthy is Ireland that it is said she has at present more than 600 centenarians, while England, Scotland and Wales can only muster 192 among them.

Muskat Grounds Rented.

In parts of the south the muskrat skin trade is so important that the marshes on which they have their burrows are rented out for the shooting. The sport is usually best at night, when the animals are out in search of food. It sometimes occurs that an unusually high tide drives them from their homes, when they are slaughtered in thousands. The fur hunters only kill them in the winter and early spring when their coats are thick and in prime condition. The flesh is not so good in winter as in warmer weather, as they get this during the cold weather.
